

## RAD 140 Raw Sarms Supplements CAS 1182367-47-0 For Reducing Fat Mass

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Minimum Order Quantity: 10Grams
- Price: USD
- Packaging Details: 1kg/Foil Bag
- Delivery Time: 3-7days after received payment
- Payment Terms: T/T, Western Union, PayPal
- Supply Ability: 5000KG Per Year

#### Product Specification

- Product Name: RAD 140
- Cas: 1182367-47-0
- Appearance: White Powder
- Purity: 98%
- Usage: Reducing Fat Mass
- Highlight: **RAD 140 Sarms Supplements,  
Raw Sarms Supplements, CAS 1182367-47-0**

## Product Description

### RAD 140 Raw powder Sarms CAS 1182367-47-0 For Reducing Fat Mass

#### Basic Information Form of SARMS RAD 140 Powder

Product Name	SARMS RAD 140/Testolone Powder
Cas No.	1182367-47-0
Purity	99%
Appearance	White powder
MF	C45h55n9o6
Shelf Life	2 years
Attention Terms	-20-4

#### Brief Introduction of SARMS RAD 140/Testolone Powder

SARMS RAD 140, also known as testo, is a selective receptor modulator (SARM). SARMS are a class of medications designed to produce the same effects as testo but with fewer side effects. RAD 140 is thought to be effective in increasing muscle mass and strength, and is currently being investigated for potential use in treating muscular dystrophy.

RAD 140 works by binding to receptors in the body. are hormones that are responsible for male characteristics such as muscle growth and strength. When RAD 140 binds to the receptor, it activates the receptor, causing it to produce the same effects as testo.

However, RAD 140 is considered more selective than testo. This means it is less likely to bind to receptors in the prostate and other tissues, which can lead to side effects such as prostate enlargement and hair loss.

RAD 140 is still being studied and there is limited data on its long-term safety and effectiveness. However, it has been shown to be effective in increasing muscle mass and strength in clinical trials.

RAD 140 is an investigational chemical and is not FDA-approved for human use. It can be purchased online, but it is important to buy from a reputable source to ensure the quality and safety of the product.

It is also important to note that RAD 140 may interact with other medications, so be sure to inform your doctor of all medications you are taking before taking RAD 140.

#### The function of SARMS RAD 140/Testolone Powder

In addition to increasing muscle mass and strength, RAD 140 may also have other benefits, such as:

- Reducing fat mass
  - Increasing bone density
  - Improving athletic performance
  - Boosting mood and energy levels
  - Reducing the risk of muscle-wasting diseases
- However, more research is needed to confirm these benefits.

RAD 140 is still under investigation, and there is limited data on its long-term safety and effectiveness. However, it has been shown to be effective in increasing muscle mass and strength in clinical trials.

RAD 140 is a research chemical and is not approved by the FDA for human use. It is available for purchase online, but it is important to buy from a reputable source to ensure the quality and safety of the product.

#### Package and Shipping of SARMS RAD 140/Testolone Powder

Package:

Under 25kg: Inner: A PE bag in an aluminum foil bag; Outside carton

Over 25kg:inner: Double PE bags; Outside: 25kg/ fibre drum
