

Raw Sodium Picosulfate Fitness Nutrition Supplements Cas 10040-45-6 For Constipation

Our Product Introduction

Basic Information

- Place of Origin: China
- Minimum Order Quantity: 100Grams
- Price: USD
- Packaging Details: 1kg/Foil Bag
- Delivery Time: 3-7days after received payment
- Payment Terms: T/T, Western Union, PayPal
- Supply Ability: 5000KG Per Year

Product Specification

- Product Name: Sodium Picosulfate
- Purity: 99%
- Appearance: White Powder
- Cas: 10040-45-6
- Usage: Treatment Of Constipation
- Highlight: Constipation Fitness Nutrition Supplements, Sodium Picosulfate Fitness Nutrition Supplements, 10040-45-6

Sodium Picosulfate chemical profile

Chemical Names: Sodium picosulfate; Picosulfate sodium; 10040-45-6; Laxoberon; Guttalax; Laxoberal More...

Molecular Formula: C₁₈H₁₃NNa₂O₈S₂

Molecular Weight: 481.401 g/mol

InChI Key: GOZDTZWAMGHLDY-UHFFFAOYSA-L

CAS: 10040-45-6

Appearance: white powder

Packing: 25kg/drum

Usage: laxative

Sodium Picosulfate Certificate Of Analysis

Product name	Sodium picosulfate	
Description	White Or Almost White Crystalline Powder	White Powder
Identification	Infrared Absorption	Positive
Assay	97.0~103.0%	98.5%
Melting Point	33~37° C	34.5~36.5° C
Loss On Drying	0.5%max	0.25%
Specific Rotation	+31° ~ +36° (C=1 in dioxane)	+33.5°
Organic Volatile Impurities	2500PPm max	< 1000PPm
Residual Solvents	Meet the requirements. (USP29)	Confirms
Chromatographic purity	sum of impurities: 3.0%max	< 3.0%

Sodium Picosulfate Application

- 1) Orally administered sodium picosulfate is generally used for thorough evacuation of the bowel, usually for patients who are preparing to undergo a colonoscopy. It takes 12-24 hours to work, since it works in the colon.
- 2) Abdominal cramps and diarrhea are normal effects of picosulfate and should be expected.
- 3) The use of sodium picosulfate has also been associated with certain electrolyte disturbances, such as hyponatremia and hypokalemia. Patients are often required to drink large amounts of clear fluids as well as rehydrate to reestablish the electrolyte balance.

FAQ:

Q:How to order a sample for quality testing purpose before your commercial order?

A: We do provide our clients small sample for quality testing purpose (Sample size form 1-50 grams). Free samples can be provided for some products due to the material cost, Our clients only need to pay the international shipping cost or provide us your Fedex/DHL account number so we can arrange the shipments. so please contact us in details by email.

Q: How to start orders or make payments?

A: You can send us your Purchase order(PO), or just send a simple confirmation by email, after communication then we will send you Proforma Invoice with our bank details for final confirmation, then you can make payment accordingly.

Q: What's our Minimun Ordering Quantity (MOQ)?

A: For the high value products, our MOQ starts from 1 gram and other products generally starts from 1 kilogram. For other low value products, MOQ can be started from 10kgs to 100kgs.

Q: Is there a discount?

A: Yes, we offer lower prices for larger quantities. There will be difference prices range on our quotation list so please inform us what quantity you will be after.

Q: How do we guarantee our products quality?

A: First of all, our quality control system will reduce our quality problem to near zero. We can always provide our certificate of analysis according to every batch of our products. We can also provide third party analysis testing due to our clients' requirement. If there is any quality issue caused by us, we will send you free goods for replacement or refund your loss.

Q: How to contact us ?

A: You can contact us thought inquiries to message box of any of our products displayed or sent us emails to our company email address or simply call us at anytime!
